

Please Don't Stop

The Music

Calling All ROCK STARS!

Power Chord Academy Rock N Roll Music Camp is the ultimate experience for dedicated musicians from twelve to eighteen years old. And their program expands this summer with even more choices for inspirational, educational, and intensive training. Specific music programs allow students to play in a band, record a CD single with an established producer, make an MTV-caliber music video, headline concerts, meet a pro touring band, go to a private concert, and learn all about music from some of the most prominent and influential people in the industry. They even offer new gaming programs for *Guitar Hero* or *Rock Band* players! For complete information, visit Power Chord Academy online at powerchordacademy.com
