Power Chord Academy Launches New Programs

Posted on 12/11/2008

Power Chord Academy, the summer camp teen musicians, has announced its schedule for the coming summer.

2009 marks PCA's 11th year. Its students play in a band, record a CD, make a music video, headline concerts, meet a pro touring band and attend a private concert! They also participate in fundamental seminars, meet industry guests, and receive a course packed with premiere music education and loads of fun. In the camp's Overdrive program, students attend for 3 days, play in 3 different bands, play 3 concerts, meet a pro touring band and attend a private concert!

Since its inception in 1999, Power Chord Academy has witnessed an exponential growth directly attributable to the intrinsic value of its acclaimed curriculum, where dedicated musicians ages 12-18 are put through the most inspirational, educational, and intensive weeks of their young careers.

For complete information, visit powerchordacademy.com.
